# Marchi Mobile opening Gates to the Turkish market new dealership partner in Turkey

by Juliane Rönisch

May 15, 2015

**Vienna, Austria** - We proudly announce that Marchi Mobile has successfully signed a distribution agreement with our new partner in Turkey. A first order for an *eleMMent* viva as an exclusive VIP shuttle has been placed and is already in production and further expansion on the Turkish market is planned for the near future. Turkish Customers enjoy now a direct and fast customer service and on-site assistance for their very personal vehicle configuration. The team of Marchi Mobile is looking forward to a fruitful growing business in the land of the crescent moon.

## About Marchi Mobile

Marchi Mobile GmbH is a young automotive brand constructing new-to-the-world vehicles that usher in a new era of luxury mobility. Not only the most outstanding design, but also functionality and features that have never been seen before in the automotive world were brought together into one masterstroke of German craftsmanship. The product range goes from mobile flagship stores over mobile homes and VIP shuttles all the way to design tractors which can be used in combination with trailers of all kinds. The visionary behind this, Mr. Mario Marchi, is a success story himself. Starting his career in the trucking industry he worked his way up following his creative mind and bringing together everything he is passionate about - motor sports, aviation and yachting. The *eleMMent* and *MMpro* series are the result of years of development and a strong team pursuing the creation of the ultimate mobile masterpiece.

Marchi Mobile is part of the Marchi Holding AG. This group of companies unites experts in their specific fields who all follow one common goal: to create excellence in mobility.
